## **Declaration of Performance**

No. DPGEB1018 v2

## 1. Unique identification code of the product-type: **Gebofix PRO VE-SF NORDIC**

2. Intended uses:

Intended use of	the construction product according to ETA 16/0600
Generic type:	Bonded injection type anchor for use in non-cracked and cracked concrete
Anchorages subject to:	Static and quasi-static loads: threaded rod M8, M10, M12, M16, M20, M24, M27, M30 reinforcing bar Ø8, Ø10, Ø12, Ø16, Ø20, Ø25, Ø32
Base materials:	<ul> <li>Reinforced or unreinforced normal weight concrete according to EN 206-1:2000</li> <li>Strength class C20/25 to C50/60 according to EN 206-1:2000</li> <li>Non-cracked concrete threaded rod M8, M10, M12, M16, M20, M24, M27, M30 reinforcing bar Ø8, Ø10, Ø12, Ø16, Ø20, Ø25, Ø32</li> <li>Cracked concrete threaded rod M12, M16, M20, M24</li> </ul>
Service temperature range:	<ul> <li>I: -40 °C to +40 °C (max. short term temperature +40 °C and max. long term temperature +24 °C)</li> <li>II: -40 °C to +80 °C (max. short term temperature +80 °C and max. long term temperature +50 °C)</li> </ul>
Environmental conditions:	<ul> <li>Elements made of zinc coated or hot-dip galvanized steel, class 4.6, 5.8 or 8.8 dry internal conditions</li> <li>Elements made of stainless steel A2-70, A4-70 or A4-80 dry internal conditions, external atmospheric exposure (including industrial and marine environment) or exposure to permanently damp internal conditions if no particular aggressive conditions exist</li> <li>Elements made of high corrosion resistant steel, property class 70 dry internal conditions, external atmospheric exposure, permanently damp internal conditions or in other particular aggressive conditions, e.g. permanent, alternating immersion in seawater, splash zone of seawater, chloride atmosphere of indoor swimming pools or atmosphere with chemical pollution (e.g. in desulphurization plants or road tunnels where de-icing materials are used)</li> </ul>
Installation:	<ol> <li>Dry or wet concrete threaded rod M8, M10, M12, M16, M20, M24, M27, M30 reinforcing bar Ø8, Ø10, Ø12, Ø16, Ø20, Ø25, Ø32</li> <li>Flooded holes threaded rod M8, M10, M12, M16 reinforcing bar Ø8, Ø10, Ø12, Ø16</li> <li>Perforation by hammer drilling Overhead installation is allowed Installation carried out by appropriately qualified personnel and under the supervision of the person responsible for technical matters on job site</li> </ol>

3. Manufacturer: G&B Fissaggi S.r.I. C.so Savona 22, Villastellone (TO), Italia

5. System of AVCP: 1

6b.

European Assessment Document: ETAG 001 Part 1 and Part 5, edition 2013, used as EAD European Technical Assessment: ETA 16/0600 Technical Assessment Body: TECHNICKÝ A ZKUŠEBNÍ ÚSTAV STAVEBNÍ PRAHA, s.p. Notified body: 1020 TECHNICKÝ A ZKUŠEBNÍ ÚSTAV STAVEBNÍ PRAHA, s.p.

## 7. Declared performances:

Declared performances according to ETAG 001:2013 Part 1 and Part 5, ETA 16/0600 (Design method Technical Report TR 029 o CEN/TS 1992-4:2009)

Threaded rod diameter						M8	M10	M12	M16	M20	M24	M27	M30
